

# Cupcake-case Fish

## What you need

- coloured card
- scissors
- paper cupcake cases
- pencil
- felt tip
- glue

## What to do

1. Draw your fish's body and fins onto the coloured card.
2. Carefully cut out the shapes.
3. Use glue to stick the fish fins to the back of the fish body.
4. Cut the cupcake cases in half - and then cut them in half again.
5. Starting at the tail end, glue the paper cases in rows. You want to overlap them a little bit.
6. For the tail, cut one paper case in half. Mould it into a fan shape by rolling one end between your fingers.
7. Glue it to the back of the fish to make his tail!
