

Make your own heart stamp and use it to decorate a card for someone special.

What you need

- card
- paint
- a plate/paper plate for your paint
- toilet roll or kitchen roll tube
- sellotape or elastic band

What to do

1. Fold your cardboard tube on one side, shaping it into a heart shape.
2. Wrap an elastic band or some sellotape around the tube to secure the heart shape. This is your stamp!
3. Dip the bottom of the tube into the paint.
4. Press the stamp on your card to create a heart shape.
5. You can use different coloured paints to make a rainbow of coloured hearts.
6. Fold the card in half and give it to someone special.
